

# Case Study with a Participatory Approach in Implementation Science of Healthcare Innovations: *Good Practice Recommendations for Primary Care Research*

Catherine Hudon, Maud-Christine Chouinard, Mathieu Bisson, Alya Danish, Marlène Karam, Ariane Girard, Pierre-Luc Bossé, Mireille Lambert.

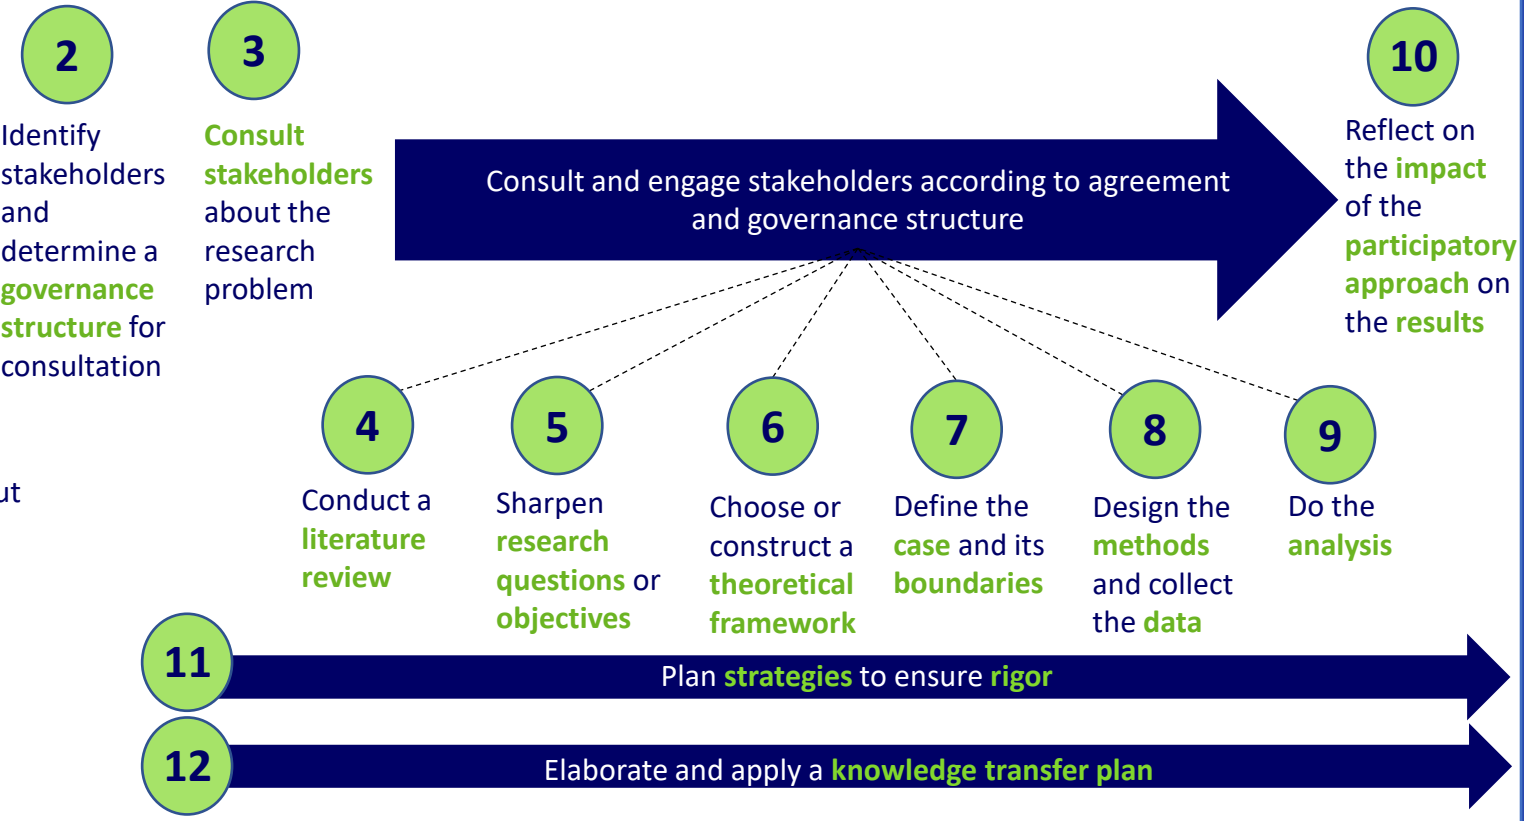

- Relevant for researchers with **pragmatic posture**
- **Consultation and co-construction** can co-exist
- Improve the **implementation of complex interventions** as case management in primary care

Participatory approach

Case study

Translation of **findings into practice** can be fostered by a **case study with a participatory approach** conducted in **12 steps**.

To schedule an appointment or for any questions, write to [Catherine.Hudon@USherbrooke.ca](mailto:Catherine.Hudon@USherbrooke.ca).
